Selected Excerpts from Student
Evaluations of New York Pilot

<u>Student</u>	<u>Para.</u>	<u>Excerpt</u>	
	4	I am glod to see this subject presented to DO managers at last!	25X1
	20	The best course on management I have ever taken for two reasons: 1) More applied management than management theory; and, 2) Agency specific.	
	32	I came into this course thinking, 'Oh no, not another management course!' I think my comments have shown that I have come away with a very valuable training experience.	
	4	Extremely important. May have come as a shock to some that they are accountable.	
	20	While condensed, it is not only worthwhile, it should be mandatory for all managers. No ticket no promotion.	
	23	Merely observing perceptions of classmates made it worthwhile.	
	24	Course was never dull. Indeed, I would have prefered more time for some of the discussions.	
	26	Definitely. Both new and old supervisors.	
	32	I will recommend the course to my colleagues and supervisor.	
	8	First time I've heard of such services - which are mainly available to Hqs people - tough to use thru cable.	
	20	Extremely useful - wish I could have had it 4 years ago when I had a previous management job.	
	?	23	
	26	It should be a prerequisite.

20 The course highlights and enumerates the skills and traits that we run across but have never taken the time to write down. In some cases it noted things we's never thought of before. In any case it renewed our commitment to work with that element of the Agency which is our best and most valuable commodity - its people. It offers some serious food for thought.

8 (24 years Agency service, 11 as a manager, now supervising 12) First time I'd heard much of this. Very helpful.

19 Believe this is the guts of the course for me. Will work on this for the rest of my career!

20 Should have taken something like this years ago. Everybody should have it.

25X1

26 This is the most applicable, given its Agency specific focus, of the management training I have taken (including POCM and Look Glass.)
